## Presbyterians Had A Prosperous Year

There was a quite good attendance at the annual meeting of the Presbyterian congregation on Tuesday evening, and all enjoyed the program. There was business to be done, music to hear, and much to eat, and then with smiles and good cheer everyone went home at not too late an hour.

The pastor presided and opened the meeting with devotional exercises. The venerable secretary, Wm. Henderson, read the minutes of the last meeting. The report of the session was presented by the moderator and gave an encouraging review of the spiritual work of the congregation.

From the Ladies' Aid there were two reports. The secretary, Mrs. J. Dunnet, gave a summary of the work and membership of the society during the past year, and Mrs. W. J. Fairbairn, the treasurer, set forth its financial success. Both these reports were received with much approval and the thanks of the congregation were expressed to the president, Mrs. F. W. Sutherland, and to the society for their diligent work.

From the church building since its erection in 1910 has now wiped out its debt. Mrs. Gordon reported that the Ladies' Aid had made no appeal during the year because of other numerous calls, yet a small contribution had been sent to the parent society.

The treasurer of the Sabbath school Mrs. D. C. Smith, showed that the attendance and contributions of the school were good and the accounts regular. The school is making history.

The secretary read a very cheering report from the board of managers, outlining work done and to be accomplished, with suitable reference to the other workers in the church's cause. Mr. Geo. Dunnet, the treasurer of the congregation, read the best report yet, showing that the church had been paid and a small balance on hand. In the midst of these reports was a program of music, consisting of: Duet by Messrs. Smith and Hitchen; solo by Mrs. Dr. Wray; solo and chorus by Miss Hitchen, with Miss Webb and Messrs. Smith and Hitchen in the chorus; duet by Miss and Mr. Hitchen. These were much appreciated. Then the following officers and committees were elected: Board of managers, to retire in 1919, Messrs. D. C. Smith, G. G. Patterson, John Leyland, L. O. Howe; to retire in 1920, Messrs. F. W. Sutherland, Geo. Dunnet, Geo. Dunnet, Wm. Henderson, Mrs. A. W. Woodcock, Mrs. W. J. Fairbairn, Mrs. Geo. Dunnet and Mrs. F. W. Sutherland.

Trustees, Messrs. C. W. White, C. T. Hall, Wm. Henderson.

Secretary—Wm. Henderson.

Treasurer—Geo. Dunnet.

Choir Master—D. C. Smith.

Planist—Miss Lesmer.

Yours of thanks were given to Mr. Hatten, "for courtesies of the Redcliff Review." Mrs. Gordon for help in the work of the church; the Ladies' Aid, the choir, the board of managers, and the ladies who provided the evening's lunch. Thereafter a sumptuous and delicious lunch was served.

## Rebels Hold a Successful Dance

One of the biggest and most congenial crowd on the season attended the dance given in Redcliff hall last Monday evening, under the auspices of the Prairie Flower lodge of Rebekahs.

The large crowd assembled in good season and within the strains of the music announced the opening dance the floor was well occupied with the youth and beauty of the town and surrounding district. From this to the "Home" was there was no slow minute. The orchestra appeared to be as anxious as the dancers to keep the floor hot and so well did they play that every number was enjoyed some several times.

The lunch, which was provided by the members of the craft, years of such a nature as to make the second half of the program even more lively than the first.

On the whole this was one of the most enjoyable evenings of the season and those who attended it will anxiously look forward to the next Rebekah dance.

## ANOTHER INDUSTRY HAS DECIDED TO LOCATE IN REDCLIFF

**International Log Bunk and Equipment Co. Will Make Redcliff Their Canadian Headquarters -- Have Secured Building and Will be in Operation in Few Weeks.**

The Review is pleased to be able to announce that another new industry has decided to locate in Redcliff and that already all arrangements are completed and the management is now busy getting the building in condition and installing the necessary machinery.

The new industry is known as "The International Log Bunk and Equipment Co." and will manufacture a patent article which greatly simplifies the work of handling and transporting logs, lumber, etc., on the car.

In the past great difficulty and inconvenience has been experienced in the old fashioned way of putting the load of logs, lumber, etc., on the car. The same inconvenience was experienced with the hoisting of the lumber to the cars. The new patent solves this problem. It is an arrangement which is attached to the cars and slightly makes the floor permanent and they are arranged in such a way as they can be worked automatically. Bunks are attached to the car, or slightly and in them is a place to set the upright which are made secure by chains, top and bottom. For unloading these uprights are released by a lever on the opposite side of the car from which the material is to be dumped.

This new firm also has a plant in Seattle and their goods are available satisfactory everywhere they are being used. Mr. Schmitt, the president and president of the company, has been in town for the past week arranging for the necessary details, and he informs us that he has visited a number of the lumbering camps and that all are greatly impressed with the advantage of his invention and will use them whenever they are on the market.

The new industry will occupy the brick building on First street previously used as a planning mill and the management expects to have it ready to start operations in a few days from this date. If the staff of men in as is expected it will only be a matter of weeks till this number will be greatly increased.

## Farwell Evening For F. J. Beechey

On Saturday evening last, at Croyle's Hall, his numerous friends gathered for a farewell supper to Mr. F. J. Beechey, structural engineer at the Rolling Mills.

After the usual patriotic toasts had been reported to the chairman called upon Mayor Holt to propose the toast to the guest of the evening. The mayor was in particularly good form and in one of his inimitable fifteen-minute speeches performed this function. An illuminated address signed by the most prominent citizens, was then read by Mr. Beechey.

Jimmy's response was made with a great deal of feeling. He gave expression to the great regret he felt at parting from the many dear friends he had in Redcliff and the hope that an early end to the war would mark his return to its most delightful environment.

For the entertainment of all, the officials of the Redcliff Hotel, Rocky Mountain Gents, put on a ceremony of initiation into the order. The High Incomparable, assisted by the High Dispenser of the Equivalent, the Unerring Welder of the Hemp, and the Conscientious Conscientious Objector to the Alberta Thirst Act, gave a complete demonstration of the teachings of that delightful ritual.

A pleasant time was had.

## Burlesque Hockey Was Very Amusing

The big hockey match billed for Wednesday night between Toveil's Terriers and Hickey's Hasbeens drew a good sized crowd, and all say they got their money's worth.

The game was a good one to watch. What it lacked in scientific effect it certainly made up in amusing incidents.

The players were contented for the occasion and as the train from Maple Creek had not arrived yet the game started the committee saw to it that the ice was well supplied with a liquid substance.

Both teams set up a good showing but the Terriers got the big end of the 7 to 2 score. For the Terriers Shakeshaft hit put up a good game and the Hasbeens Snooker Black was the big guy.

In the second half Gasoline Toveil and Brochu-Snowden started hitting above the shin and for a time it looked as though the referee had lost control, but Hickey's Charlie in uniform was Johnny on the spot and the Hasbeens Snooker Black was the big guy.

Yet Camps and his ambulance corps were kept busy attending to the wounded during the game, but all were able to go to work again this morning.

Justified Hicks, captain of the Hasbeens, claim to be did not get a square deal and he challenged the Terriers to meet his aggregation again as soon as Radiator Bait gets his costume changed.

## High School Boys Beat Hat Champions

Redcliff again came out on top in the hockey match played here last evening between the Redcliff High School and the Medicine Hat and our high school boys, by a score of 4 goals to 2.

The two teams were very evenly matched as to size and age but the local line-up was "much superior" to the visitor in team work and speed.

There was a good crowd at the game and all were very appreciably surprised at the very excellent playing made by the high school boys. The first team, against whom they played was last year's champions in the city league, but they were not in it with our boys last Friday evening.

A return game is being played in Medicine Hat tonight.

## Beat Hat Champions

Redcliff again came out on top in the hockey match played here last evening between the Redcliff High School and the Medicine Hat and our high school boys, by a score of 4 goals to 2.

The two teams were very evenly matched as to size and age but the local line-up was "much superior" to the visitor in team work and speed.

A return game is being played in Medicine Hat tonight.

## Transport With U. S. Sammies Is Torpedoed

The British steamer Ticonderoga with 2,170 United States soldiers aboard, was torpedoed and sunk in the war zone. No estimate of the loss of life is available, but 1,913 survivors have been landed at Buchanan and Larne, Ireland. The disaster was officially announced by the war department which had received only meager services without names of survivors or victims.

The Ticonderoga was manned by British sailors, with a British naval guard, and was conveyed by British ships.

News of the first great disaster in the war to America's armed forces came in a brief dispatch to the war department. It did not mention the possibility of further survivors, but hope was built on the fact that all those rescued were landed at two widely separated Irish ports and indications that relief vessels were at hand quickly.

## Funeral of The Late Vernice Hurd

The service in connection with the funeral of Vernice Hurd was held at the home of her grandparents, the Rev. F. J. White, on Friday, Feb. 1st, at 1:30 p.m.

The deceased was a member of the Redcliff Sunday school and the pastor, the Rev. F. J. White, conducted the funeral. A large number of friends and neighbors were present, among them being a group of girl friends from the Sunday school, and public school who brought an aid on the coffin a beautiful wreath of white flowers.

In speaking a few words from the text, "I send you These Arise," the minister alluded to the evident loss of the deceased for her father and her dying testimony that she was trusting in His Grace, and the speaker declared last to her and to all believers the Lord would say some day, "I saw you These Arise."

The grandnephews desire to express their sincere thanks for the sympathy and help of friends and neighbors.

## Heatless Days for Eastern Provinces

On the recommendation of C. A. Magrath, Canadian fuel controller, the federal cabinet passed an order-in-council, suspending the operation of manufacturing plants for three days, Feb. 9 to end 11. The only exceptions are plants which must be continuously operated seven days of the week to avoid serious injury to life, health, or property, or to the manufacture of perishable foods, or foods necessary for the maintenance of the daily newspaper. The order applies to all business and professional establishments, and to the retail stores, and to the heating of restaurants, hotels or places where meals are regularly served.

The regulations do not apply to Western Canada nor the Maritime provinces. The order, as passed, will be in effect for the next three days, Feb. 9 to end 11. The regulations do not apply to the heating of restaurants, hotels or places where meals are regularly served.

The regulations do not apply to Western Canada nor the Maritime provinces. The order, as passed, will be in effect for the next three days, Feb. 9 to end 11. The regulations do not apply to the heating of restaurants, hotels or places where meals are regularly served.

## No Peace Till Policies are Realized

The war was to be prosecuted energetically by the allies and the United States until "based on the principles of freedom, justice and respect for international law" is obtained.

The decision of the supreme council of the allies in Paris, against the German ultimatum.

The high-sounding phrases in the recent speeches of the imperial German chancellor and his cabinet, and the German foreign minister were entirely thrown into the discard by the council at its sessions at Versailles, and it was decided that the war would be vigorously prosecuted until that time came, when there is justification for the hope that a peace may be realized in accord with the principles of freedom, justice and respect for international law.

By Lloyd George and President Wilson.

## 2,000 Coal Miners Are Now on Strike

Demanding that the "closed shop" principle be enforced in the Redcliff, 2,000 miners employed in the Drumheller field went on strike Monday morning. A detachment of mounted police, under Major Pitt-Harris, are at present in charge and ready for eventualities. A wire was sent to military headquarters in Calgary to hold troops in readiness to move to the scene of the trouble. Both the operators and the mines are shut, and declare that they will not compromise.

In brief, the above is the situation which has developed over the week-end in the big Drumheller coal field, and the situation will be watched with interest by the people of Alberta, as a continued strike will mean an acute coal shortage, as a large proportion of the fuel used in this province is drawn from these fields.

## How to Send Letters To Enemy Countries

Up to the present it has been permissible to send letters destined for persons in an enemy country or a country in the occupation of the enemy, subjects to censorship through the medium of an intermediary in a neutral country. An arrangement has now been made whereby such correspondence can be for forwarded through the medium of Messrs. Cook & Son, 530 St. Catherine street, Montreal, in connection with the authority received by their London House from the British government to undertake the transmission of such correspondence.

The letters to be forwarded must relate only to private news and must contain any reference to military or naval movements, to political and economic conditions or the like. The letter should be enclosed in an envelope legibly addressed to its ultimate destination, and must be left open in accordance with the censorship regulations of many countries. This should then be placed in another envelope addressed to The Cook & Son, 530 St. Catherine street, Montreal, together with a self-addressed, legibly written, the name of the sender and also note for twenty-five cents to cover the charges.

## U.S. Help Will Exceed Hope of Allies

The United States will furnish more money for the war in a shorter time than has been the case with any other country, and the aid of our people or the aid of our people with which we are associated," Chairman Flood of the foreign affairs committee declared in the house, representing the diplomatic and consular appropriation bill. The chairman's assertion was in consonance with his declaration of Col. House's mission to Great Britain and France and was made in the course of an outline given to the house on the statement of the war department activities. As a result of the work of the mission, Mr. Flood said, a complete understanding exists of precisely what the allies need from this country and exactly what this country can furnish and when the supplies. Under the secretariat of state, war and the navy, he declared, the country will furnish "more men and means than was expected of it."

## Alberta Senators Are Appointed

Two new senators for Alberta have been appointed, Edward Michener, the leader of the opposition in the Alberta legislature, and William J. Harner, deputy minister of railways and telegraphs in that province, are the new appointees. Mr. Michener comes from Red Deer and Mr. Harner from Edmonton. The former is a Conservative and the latter a Liberal.

There are still two vacancies from Ontario, one from Saskatchewan and one from British Columbia.

For the Ontario seats, John Webster and W. H. Smyth, ex-M.P.s, are prominently mentioned.

## Binder Twine Made Out of Flax Straw

The Flax Fibre Development Association of Regina, Sask., announces that it has discovered a process for manufacturing flax straw into binder twine, commercial twine and yarn for weaving into heavy sackings and towelling. Heretofore, the flax straw of the above named association, amounting to over 1,000,000 tons annually, has been burned after threshing.

It is said that experiments carried out this autumn with the new binder twine showed that it bound 90 per cent of the sheaves perfectly, a better result than was obtained with standard flax twine. A co-operative company is being formed to manufacture the new twine.

Secretary Daniels said that the United States and the allies were winning the fight against Germany's submarines. "We are having our up and down," he said, "but the fight is being won."

## CORN GROWING.

Considerable attention has been given at the Brandon Experimental Farm to the growing of corn for fodder. The results of the past season were favorable and it has been found that a very satisfactory crop. It gives a large yield of fodder, the quality of the corn, especially when stored in silage, is most valuable and it serves well as a cleaning crop when handled properly in a rotation of crops.

The Earl of Derby, secretary for war, notified Field Marshal Viscount French, commander of the home forces, of his decision to reduce the rations of meat, sugar and tea for all the home forces except youths under 19 years training for abroad.

## Great Demand Now For Extract Honey

Sugar is an important war food, its price is high and there will probably be a shortage in the near future. Honey, the unequalled natural sweetener, is being affected in sympathy. The unusually large crop of honey produced in Ontario, Quebec and Manitoba in 1918 was sold at prices slightly above those of the previous season and present indications point to a still greater demand and higher prices for the new crop. Thus, by producing as much honey as possible this year, the beekeepers of Canada will not only increase their return but will be helping the Empire. Their remarks refer to extracted honey. An increased demand for comb honey cannot be predicted.

## Western Hye Grass.

One of the crops that is attracting attention on the Illustration Stations in Alberta and Saskatchewan is western hye grass. This hye grass has been grown for the last two seasons with a fair amount of success.

## Government Working On Railway Policy

The Ottawa correspondent of the Free Press says that within a fortnight the government expects to have a railway war policy to announce to the public. Whatever policy is decided upon will be given effect to under the War Measures Act, and whatever it is necessary to do will be ratified by legislation later on.

The complete nationalization of a number of advantages," the correspondent continues, "the impression prevailing is that complete nationalization of the present will be adopted. The labor men favored nationalization, but proposed as an alternative control during the period of the war."

"There is at present considerable diversity of opinion among the members of the cabinet regarding the policy to be pursued. A persistent rumor is that, while complete nationalization will not be resorted to, the Great Northern and Grand Trunk Pacific will be added to the government railways."

 Issued on Thursday of each week at Redcliff, Alberta.

THURSDAY, FEB. 7, 1918.

## ASLEEP AT THE SWITCH.

While the fuel situation is assuming serious proportions in Ontario, coal mines in Alberta are running on half shifts and find it hard work to get rid of the coal they are mining at this time.

The Review saw a circular which is being sent broadcast through the province from a mine near Edmonton, stating they had all kinds of coal on hand and could guarantee delivery of any amounts on twenty-four hours' notice. Our own coal mine here in Redcliff is not running to its full capacity, and miners have recently been laid off because there is not a local market for the total output of this mine.

Under these circumstances there should be no excuse for trying up of industries; public buildings, etc., and the inconvenience, and the other thing, suffering in Ontario and other eastern provinces. We know that the coal in many of the Alberta mines is not in the same class as the hard coal which the people of Ontario have been accustomed to using, but it beats nothing at all to pieces. It can be and is being used very satisfactorily for domestic purposes, and with very little trouble could be used for steam purposes in factories and large buildings.

The only obstacle in the way of getting this coal from the mines to the consumer in the east is the exorbitant freight rates.

One would imagine that with our fuel controllers, food controllers, commissions for this and that, and the other thing, and a war-time government recently endorsed by the people, such trifling obstacles could be easily brushed aside.

With three transcontinental railroads operating between the producer and the consumer and two of them practically controlled by the government, it should be possible to run a special coal train from Alberta to Ontario every day of the week and twice on Sunday.

It looks very much as though someone is asleep at the switch.

## DEFINITE ACTION.

According to Ottawa dispatches, the new food controller, Mr. H. B. Thompson, believes the time has come for further compulsory regulations in the way of rationing. It is said he will follow the educational campaign of his predecessor, Mr. Hanna, with a series of concrete and drastic restrictive regulations to stop food waste and to meet as far as possible the urgent demand of the allies for food supplies from Canada.

Since the food situation is now becoming such an important factor in the carrying on of the war it is hoped there is some truth in the report. Up to the present we here in Canada have but touched the fringe of food conservation. What is needed to "make our efforts count," as a whole, really successful and effective is some definite line of action decided upon and then put into law. There is not much use making suggestions as to what we should refrain from using

and still allowing them to be offered for sale in much the same way as in peace times.

## TIME FOR ACTION.

The strike of two thousand coal miners in the Drumheller district at this time is indeed a serious matter, and one which should be handled without gloves by those in a position to do so.

The unfortunate part of this strike is that the Canadian people who have thrown open their doors to receive and welcome men and their families from foreign countries, and extend to them liberties and protection unknown to them in the land from which they came, are now at the mercy of these same people. True there are some British subjects among the strikers but do their credit, we are told, they are willing to resume work and endeavor to have their grievances settled in other ways. Unfortunately they, too, are at the mercy of the foreign element.

This foreign element question in Canada at the present time is one which has been the source of much dissatisfaction ever since the commencement of the great war, and it will have to be solved sooner or later.

When Canada is sending her best men to the battlefield, and placing her resources at the disposal of the Empire, in order to make possible the continuation of the liberties which these foreigners now enjoy in this country, it is about time they were to sit up and take notice. The "Defence of the Realm Act" gives the government unlimited scope to go to the limit and there are still enough white men left in the country to see that any laws enacted are carried out to the letter.

Hon. Edward Brown, provincial minister of Manitoba, said in his budget speech that he looked forward to an early transfer by the Dominion to the province of its natural resources.

When the transfer is made the province will acquire title for 25,000,000 acres of land now owned by the Dominion, to say nothing of the vast mineral resources. If Manitoba gets her resources there should be no reason why the rest of the western provinces should not get theirs. With Alberta in possession of all her natural resources a grand opportunity would be given to the legislature to undertake a big program of development.

## OTHER PEOPLE'S OPINIONS.

The Review is not responsible for the opinions that are expressed by its readers in communications printed under this head.—Publisher.

Editor Redcliff Review:

After 34 years of war our friends—the pacifists—are still with us. Millions of his fellow citizens and fellow countrymen have been making war upon war, while they have fought and won a hundred fights to "make democracy safe" and establish righteousness in the world. The pacifists have been grumbling around complaining about the war, but doing nothing to end it. He is a modern misnomer, an up-to-date anachronism, and a genuine nuisance. His name would lead one to think that he desired peace, but his creed of non-resistance to evil puts a limitation upon war and is a direct encouragement to wrong-doing. The hold-up man (or the hold-up nation) desires nothing better than to live in a world of pacifists where his victim can work like a slave without being hurt and where he can rob and murder without fear of resistance and recompense. Especially dangerous to the pacifist when he quotes the Bible in support of his creed, for while he quotes only one half of the teaching and rejects the other half, he is likely to mislead good people, whose reverence for the Bible is greater than their knowledge of it.

The 23rd and 24th chapters of the Epistle to the Romans will provide us with a good example of how the pacifist treats the Bible. He reads in the 12th verse of the former chapter, "Dear beloved, avenge not yourselves

but rather give place unto wrath." "This doctrine of individual and personal non-resistance is a straightaway incorporation in his creed as he ought to do. Then he reads in the 13th chapter and finds in the 4th and 5th verses something like "bearing the sword," "executing wrath" and "paying taxes for this same purpose." This part of the Bible teaching he rejects and claims to find a plea for it in his creed. "It is as much the word of God as the 'thou shalt not kill' which he rejects, and which text our pacifist friends quote so often and to which he gives so prominent place in his private capacity as an individual, when Paul speaks of non-resistance and of the sin of killing. But in the 4th and 5th verses the message is to the Christian soldier, and it is that part of the Bible the pacifist rejects.

Now who is the "Minister of God" that "bears not the sword in vain" and "executes wrath upon evil-doers" according to these verses. It is, the Bible says, the ruler for the time being. He is no power outside of the law and the minister of God. But who are the rulers in Republican America, Republican France and in the democratic British Empire? The only answer is, as everybody knows, the people are the virtual rulers. So these people are the ministers of God, bearing not the sword in vain, but pointed by God to execute wrath upon wrong-doers. And if these rulers decide, as they have done, that Germany is the enemy among the nations, that she is the evil-power that violates and robs offensive nations like Belgium, Alsace, passenger and hospital ships without compunction and generally acts as the hold-up nation of the earth, then it is the duty of every Christian in his capacity as a citizen to pay his tribute of service and sacrifice to his country that she may effectively serve God by executing vengeance upon the evil-doer. The Christian who fails to do this shows little Christianity and less of love for Bible teaching. Is the pacifist Christian doing this? No! He is grumbling around, libelling the soldier, doing his bit of duty for God and country, by calling him a murderer. Murder is an ugly word used to charge a man with it is a serious thing, if he is not guilty. Mr. Editor, we need the help of the law. Let the pacifist take his stand in court, if he has the courage of his convictions, and declare the brave soldier a murderer. Let a jury of his fellow citizens try him for libel, and if found guilty, let him pay damages for besmirching the fair name of one who is doing what he believes to be right and just.

The pacifist will argue that Christ's teaching prohibits war, when he says "Blessed be ye, who are persecuted for Jesus' sake." This is true, but Jesus was given to prefer individuals, not such. Can we conceive that Christ would have insisted on this before an outburst of pillage, theft, rape, massacre, executioners and soldiers? The plain duty of these men, in their position of trust as servants of the public, is to resist evil and nothing in the teaching of Christ prohibits them. One can do Christ true aside from his individual teaching to discuss the duties of men as citizens and then it is at the invitation of His spirit. His decision on that occasion, "Render unto Caesar the things that are Caesar's," might well be urged by the state when it asks for men, material and money to prosecute a war which the majority of citizens believe to be in the interests of righteousness.

Under present conditions, Mr. Editor, when the people of the allied nations are beset by a continuing and increasing burden of anxiety, expense and service, when there is urgent need for moral convictions, strong faith and high courage in the face of the dark and stress, the pacifist is nothing less than a witness hindrance. He is a snake in the grass, whispering at the heels of the worthy soldier. He is a rat in the cellar destroying our supplies of confidence and courage. He is a witness from the root of the tree of victory for God and right. He is a drag on the chariot-wheel of democratic progress. He is traitor in the army selling his soul and honor for a patchwork creed and betraying the country that shelters him. He is an arch-enemy in the camp disobeying the will of his God and endangering the lives of his Lord's army. He is a Judas playing into the hands of the enemy, getting as much as he can out of the country and its resources and leaving her, so far as he cares, to die in the hands of her foes. Every decent man, and especially every Christian, should add this to his prayers: "God save me from being a pacifist."

Yours truly,  
 A CHRISTIAN CITIZEN.

# CHURCH NOTICES

**CHURCH OF ENGLAND.**  
 Friday—Evening and intercession 8:45; choir practice 8:10.  
 Sunday, Quinquagesima. Sunday—Holy communion at 11 a.m. and 1:30 p.m.; Sunday school 2:30; evening 7:30.  
 Monday—Junior W. A.  
 Tuesday—Shrove Tuesday.  
 Wednesday, Ash Wednesday—First day of Lent. Holy communion 8 a.m.; matins 11 a.m.; children's service 4:15 p.m.  
 Thursday—W. A.

**THE PRESBYTERIAN CHURCH.**  
 Divine worship at 11 a.m. and 1:30 p.m. Sermon: "The Hope of Israel," evening: "The Learning that Counts."  
 Sunday school at 2:15; Bible class at the same hour.  
 The Ladies' Aid held a Valentine Supper and social on Thursday, the 14th inst., at the hall, from 6 to 7:30 p.m. There will be a good program after supper. Tickets 35 cents. Children under ten, 15 cents.

**FIRST BAPTIST CHURCH.**  
 Sunday services as usual at 11 a.m. and 7:30 p.m.  
 Sunday school at 12 o'clock.  
 Tuesday—Prayer meeting at 8 p.m.  
 Thursday—Ladies' Aid at 2:30 p.m.

**CATHOLIC CHURCH.**  
 Catholic services will be held in Crowe's hall the second and fourth Sundays of each month at 8 o'clock a.m.

**CANADA AND U. S. HAVE LABOR AGREEMENT.**  
 Complete co-operation between Canada and the United States in the distribution of labor for war purposes has been inaugurated. By mutual agreement Canada will not import labor from the United States without the consent of the United States, and American employers will not import Canadian labor without the consent of Canada.

**TO UTILIZE OLD TIN CANS.**  
 Application has been made to the board of control, Winnipeg, for a four-year franchise to utilize the old tin cans accumulated in the city dumps. The project contemplates the separating of the solder, tin and iron in the cans, and the melting of the last mentioned into bars.

# Says Hohenzollerns

## Will be Overthrown

Opinion that unless the war ends within 1918 there will be a revolution which will overthrow the Hohenzollerns in Germany was expressed by the Rev. Alexander Daniels, of Hoyt, Wis., upon his arrival in the United States from Germany by way of Britain.

"The people of Germany are starving," said Mr. Daniels, who for three years has been studying in Westphalia. "There are few left who are more than 50 years of age, all succumbing to lack of nutrition, while the death rate among the children is frightful."

President Wilson is anathematized throughout the empire but hardly worse than the emperor, whose price is sold openly of the crown prince is not fit to repeat.  
 "I believe they will quell this incipient revolution, but there will be no other unless the war ends before next year, and that one will be the end of the Hohenzollerns. The Germans are tragically short of all sort of food."

**A CONSERVATION CALENDAR.**  
 Monday—will say is our "Restless Day."  
 Tuesday—One flicker, one cardinal, one crow, one raven, one "Weasel Day."

One oyster, one herring, one sole. Wednesday—this is our "Whist Day."  
 One corn cake, one dogger, one soap.

Thursday—we must have a "Sweat" less day.  
 One pickle, one lemon, one bone. Friday—will make a good "Tallest Day."  
 One cheerful and glorious fat. Saturday—call it a "Treasure Day." For all recipients please say: "But Sunday—may I never forgive you, we pray."

If we should all happen to feel a little more hungry than usual day.

And once again at a square meal.—Kansas City Star.

## ITEMS OF LOCAL INTEREST

Money back Taffeta silk at Gibson & Tupper's; guaranteed to wear.

The Alberta Insurance opened for business today.

C. P. Elder has resigned his position as treasurer of the city of Medicine Hat.

See these new silks at Gibson & Tupper's for the very latest novelty for shirts, shirt waists and dresses.

The Redcliff Citizens Band is giving a grand concert and dance, Feb. 23. Reserve this date. Doors open 8 o'clock.

A. Tester and P. Bellah were the 3 and 4-ton tournament at Macdonald's last week. Another tournament is now in full swing.

When you need any men's furnishings do not fail to give Gibson & Tupper a call; also do not fail to give them your order for spring suits.

M. McCallum left this week for Spokane to work in one of the munition plants in that city. Mrs. McCallum and family will remain here for the winter.

Mrs. H. E. Howard entertained to a bridge party last Wednesday evening. Mrs. Stone was successful in winning the prize for the "Triple Score" and Miss Hyde landed the hooky.

As the picture show theatres in other places have found it necessary to increase the admission fee because of the advance in materials, the "Amuse" theatre here will, in future, charge 20c and 15c.

John Butterfield, one of the pioneers of the town, leaves next week for Spokane to accept a position in a large manufacturing plant in that city. He expects to be away all winter and spring at least.

Bills are now out announcing a fancy dress carnival in the skating rink here Friday night of this week. God prizes are being offered for the best costumes for ladies, girls, boys and girls. Get your ready and join the crowd.

Redcliff came very nearly having a real meatless day last Sunday. Owing to the storm and consequent demoralizing of the freight service the usual shipment of meat had not arrived here for the Saturday trade. Fortunately, however, arrangements were made to get a supply from Medicine Hat and the Sunday dinner was available as usual.

One of the Chalmers employed in the Glass plant here met with a very painful accident while at his work last Wednesday afternoon. He slipped and fell on the cog wheels of the machinery which made a nasty wound in his limb about the thigh. He was taken to the Medicine Hat hospital where he is now progressing favorably.

A number of ladies in town are getting up what they have named a "Hard Time Dance." The dance will be held in Reid's hall on Monday evening, Feb. 11th and the proceeds will go to the Red Cross society. This will be a dance from which none need stay away because they have no new dress or evening suit. In fact we are told that any who appear in these garbs will be heavily fined. Good music and a war-time lunch will be provided. Don't miss the fun.

Mrs. C. E. Hamilton, of Truro, N. S., is the guest of Mrs. G. L. Gordon this week.

Mrs. Rose Wallace, the very latest stayer, does not fail to see them at Gibson & Tupper's.

Edith Harvey, of Medicine Hat, spent last week-end in town, the guest of Mrs. and Mrs. W. J. Fairbairn.

Mrs. C. V. Gibson and daughter, Maryann, are spending a few days in town, the guests of Mr. and Mrs. M. Mansfield in the Howell district.

The military service department of the Y. M. C. A. acknowledges the receipt of \$145.00 from the employees of the Belling Mills here.

Mr. Alex. Middleton, of Dunmore, is spending a few-days in town this week visiting his sisters, Mrs. J. Ellis and Mrs. White.

The senior hockey club intends giving a dance in Reid's hall on Friday evening the 22nd of this month. Make no other date for that night and watch for further particulars.

Comptroller Langille received a card this week from Capt. E. C. Danah. The card was written from Dublin, where Mr. Danah is now visiting friends. He says he is enjoying the visit of his life.

A two-ounce bread ration was ordered by the United States food administration for patrons of hotels, restaurants and dining cars. This allowance is about the same as that now observed in England.

Bills are now out announcing a fancy dress Carnival to be held in the skating rink here tomorrow (Friday) evening. God prizes are being offered for the best costumes. Get your ready. Everybody will be there.

The case of Adam Nield, who was tried in Medicine Hat last fall on the charge of murdering his wife and found guilty, was taken to the Alberta court of appeal. This court dismissed the appeal. The accused must now face the penalty of his crime. He is sentenced to be hanged on March 28.

T. Beland, who has been on an extended visit to Eastern Canada and the States, returned to his farm in the Northwest last week. Mr. Beland reports that wherever he went while east he received many inquiries about farming conditions in Alberta and he looks for a big rush to this province next spring.

Last Saturday was Candlemas day—the day the groundhog comes out to see whether or not spring is in sight. The old story goes that if on that occasion he sees his shadow spring is not yet, and he goes back for another six weeks. As Saturday was a good day for shadows it follows we are yet to have some winter weather.

Beautiful beyond words in its daring revelations of the female form divine and the charm of its sea and grotto settings at the Theatre of Santa Catalina, "Sweet of the Sea," will never be surpassed in our day. This famous picture is coming to the Amuse-U theatre on Thursday and Friday, Feb. 14th and 15th.

About thirty young people assembled at the home of Mr. and Mrs. W. J. Fairbairn last Wednesday evening to hold a farewell send-off for Mr. Beechey, who has enlisted. Progressive films were played during the first part of the evening. In this Miss Sullivan was the ladies' prize and Mr. Macleod the gent's. After lunch was served a splendid social hour was spent.

A 200-bed convalescent hospital for returned soldiers will be built near this site of Sarcee camp.

Bishop Harding, Bishop of Qu'Appelle, is spending the day in town, the guest of Rev. H. C. C. Gibson.

Mr. W. Wallis received word this week that his grandmother Wallis died suddenly at her home in St. Louis.

A. B. Clow and H. E. Howard, both of this town, have been gazetted in the notary public, in and for the province of Alberta.

M. J. McIlroy, who has been down in North Dakota working in mills there for American government, returned to town this week. He expects to leave again shortly for California to engage in the same class of work.

Mr. Geo. Lydiate entertained to five tables of bridge last Thursday evening. When the tables were added on it was found that Mrs. Harbert and Mr. Davidson carried off the honors, while Mrs. Harper and Mr. Robeson secured the booties. A most enjoyable evening was spent.

## MAKING CORN INTO HOGS.

It takes 12 bushels of No. 2 corn to make 100 lbs. of average live hog under average farm conditions. This is the finding of the commission appointed by the United States Food Controller to investigate the cost of hog production and to suggest plans for stimulating it. The figures given are based on a survey of ten years' production, ending 1916. The commission reported that, to bring production back to normal, it would be necessary to pay at least the equivalent value of 13.5 bushels of corn for 100 lbs. of average hog, and recommended that a minimum emergency price of \$16 per cwt. at the Chicago market be established immediately.

## AMERICAN TROOPS

FOR BRITISH CAMPS. In view of the difficult conditions of the British training system to front line trenches in Flanders. This project it was learned, has been talked over in various forms, one of the general proposals being that 150 battalions be assigned for such training.

W. F. O'Connor, cost-of-living commissioner, declares that he has nothing to extenuate. Mr. O'Connor was making particular reference to his recent report regarding the quantities of eggs held in store in Canada as on January 1, 1918. Discussing criticism of the report, Mr. O'Connor referred, in passing, to a vast Montreal company dealing in eggs, which he did not name, as having declared a 90 per cent. dividend on its capital last year, in addition to repurchases.

The treasurer of the Medicine Hat Cross Society begs to acknowledge with thanks the receipt of \$47.80 from the employees of the Canadian Western Steel Company.

## BIRTH.
